

Autodesk's Jonathan Knowles Highlights Key Benefits of On-Demand Collaborative Project Management at Build Boston 2006

November 13, 2006

SAN FRANCISCO, Nov. 13 /PRNewswire/ --

Who: Jonathan Knowles, global collaboration strategist for Autodesk Collaboration Solutions will speak at the annual Build Boston 2006 Conference in Boston, MA November 14-16, 2006.

What: Knowles will provide an overview on the evolution of the building industry and the broad adoption of on-demand collaborative project management. The presentation will include a comprehensive synopsis of the changing industry, and how it is moving from a manual, paper-based model into an online, collaborative working environment with project management software to automate complex bidding, cost, and construction processes and keep everyone on the same page. Using real-life examples, Knowles will explain the solutions that builders are using to achieve strong return-on-investment figures, as well as tips on how to stay ahead of the curve as new technologies are introduced into building projects.

When: The presentation is scheduled from 1:00 to 2:30 p.m., Thursday, November 16, 2006 at the Seaport World Trade Center.

Where: Seaport World Trade Center in Boston, MA

For more information about the Build Boston 2006 Conference, visit: <http://www.buildboston.com/>

Build Boston is the largest regional tradeshow and convention for the design and construction industry. The conference is devoted to providing tools and industry updates to a variety of building industry professionals, including building owners, architects, engineers, contractors, interior designers, and landscape architects.
