

## Autodesk Licenses ISOGEN(R) Technology From Intergraph

November 11, 2009

SAN RAFAEL, Calif.--(BUSINESS WIRE)--Nov. 11, 2009-- [Autodesk, Inc.](#) (NASDAQ:ADSK), a world leader in 2D and [3D design](#) and engineering software, today announced it has entered into a long-term OEM licensing agreement with Intergraph® to embed [Intergraph ISOGEN®](#) technology in Autodesk's AutoCAD® Plant 3D 2010 product. With tens of thousands of users worldwide, Intergraph ISOGEN is the leading software application for automatic production of piping isometrics and bills of materials.

"Intergraph ISOGEN technology will enable our AutoCAD Plant 3D customers to more easily and efficiently generate isometrics and fabrication drawings from their 3D models. We are pleased to work with Intergraph to make this proven technology available to Autodesk customers," said Mark Strassman, vice president, Plant Solutions, AEC, Autodesk.

"We are pleased to work with Autodesk to provide the leading isometrics software application to its customers," said Patrick Holcomb, executive vice president of Intergraph's Process, Power and Marine division. "As Intergraph ISOGEN technology is open and interoperable, Autodesk and other Intergraph ISOGEN customers and partners will be able to more easily share information – a win-win for the industry."

Under the agreement, Autodesk will provide front-line customer support for Intergraph ISOGEN as is needed by end-users of AutoCAD Plant 3D 2010.

### About AutoCAD Plant 3D 2010

Built on the familiar AutoCAD® platform, AutoCAD Plant 3D features specification-driven design and standard parts catalogs to help streamline the placement of piping, equipment, and support structures. Also included in the product is integrated AutoCAD® P&ID functionality and quicker generation of isometric and orthographic drawings. The new product joins AutoCAD®, AutoCAD® P&ID, and Autodesk® Navisworks® software products in a line-up of Autodesk products built specifically for the plant design and engineering industry. ### About Intergraph

Intergraph is the leading global provider of engineering and geospatial software that enables customers to visualize complex data. Businesses and governments in more than 60 countries rely on Intergraph's industry-specific software to organize vast amounts of data into understandable visual representations and actionable intelligence. Intergraph's software and services empower customers to build and operate more efficient plants and ships, create intelligent maps, and protect critical infrastructure and millions of people around the world.

Intergraph operates through two divisions: Process, Power & Marine (PP&M) and Security, Government & Infrastructure (SG&I). Intergraph PP&M provides enterprise engineering software for the design, construction and operation of plants, ships and offshore facilities. Intergraph SG&I provides geospatially-powered solutions to the defense and intelligence, public safety and security, government, transportation, photogrammetry, utilities, and communications industries.
