#### Business Outlook

The following are forward-looking statements based on current expectations and assumptions, and involve risks and uncertainties, some of which are set forth below under "Safe Harbor Statement." Autodesk's business outlook for the first quarter and full-year fiscal 2022 takes into consideration the current economic environment and foreign exchange currency rate environment. A reconciliation between the fiscal 2022 GAAP and non-GAAP estimates is provided below or in the tables later in this document.

##### First Quarter Fiscal 2022

Q1 FY22	
Q1 FY22 Guidance Metrics (1)	(ending April 30, 2021)
Revenue (in millions)	\$955 - \$970
EPS GAAP	\$0.39 - \$0.44
EPS non-GAAP (2)	\$0.91 - \$0.96

(1) Guidance does not include the impact of the acquisition of Innovyze.

(2) Non-GAAP earnings per diluted share excludes \$0.51 related to stock-based compensation expense, \$0.07 for the amortization of purchased intangibles, \$0.02 for acquisition-related costs, partially offset by (\$0.08) related to a GAAP-only tax benefit.

##### Full-Year Fiscal 2022

	<b>FY22</b>
<b>FY22 Guidance Metrics (1)</b>	<b>(ending January 31, 2022)</b>
	\$4,850 - \$4,975
<b>Billings (in millions) (2)</b>	Up 17% - 20%
	\$4,265 - \$4,345
<b>Revenue (in millions) (3)</b>	Up 13% - 15%
<b>GAAP operating margin</b>	17% - 18%
<b>Non-GAAP operating margin (4)</b>	31% - 32%
<b>EPS GAAP</b>	\$2.39 - \$2.69
<b>EPS non-GAAP (5)</b>	\$4.78 - \$5.08
<b>Free cash flow (in millions) (6)</b>	\$1,575 - \$1,650

- (1) Guidance does not include the impact of the acquisition of Innovyze.
- (2) Excluding the approximately \$70 million impact of foreign currency exchange rates and hedge gains/losses, billings guidance would be \$4,780 - \$4,905 million.
- (3) Excluding the approximately \$55 million impact of foreign currency exchange rates and hedge gains/losses, revenue guidance would be \$4,210 - \$4,290 million.
- (4) Non-GAAP operating margin excludes approximately 13% related to stock-based compensation expense, approximately 1% for the amortization of purchased intangibles, and less than 1% related to acquisition-related costs.
- (5) Non-GAAP earnings per diluted share excludes \$2.44 related to stock-based compensation expense, \$0.27 for the amortization of purchased intangibles, \$0.04 related to acquisition-related costs, partially offset by (\$0.36) related to a GAAP-only tax benefit.
- (6) Free cash flow is cash flow from operating activities less approximately \$75 million of capital expenditures.

The first quarter and full-year fiscal 2022 outlook assume a projected annual effective tax rate of 18 percent and 16 percent for GAAP and non-GAAP results, respectively. Shifts in geographic profitability continue to impact the annual effective tax rate due to significant differences in tax rates in various jurisdictions. As such, assumptions for the annual effective tax rate are evaluated regularly and may change based on the projected geographic mix of earnings.

#### **Earnings Conference Call and Webcast**

Autodesk will host its fourth quarter conference call today at 5 p.m. ET. The live broadcast can be accessed at [autodesk.com/investor](https://autodesk.com/investor). A transcript of the opening commentary will also be available following the conference call.

A replay of the broadcast will be available at 7 p.m. ET at [autodesk.com/investor](https://autodesk.com/investor). This replay will be maintained on Autodesk's website for at least 12 months.

#### **Investor Presentation Details**

An investor presentation providing additional information can be found at [autodesk.com/investor](https://autodesk.com/investor).

#### **Key Performance Metrics**

To help better understand our financial performance, we use several key performance metrics including billings, recurring revenue, net revenue retention rate ("NR3"), and subscriptions. These metrics are key performance metrics and should be viewed independently of revenue and deferred revenue. These metrics are not intended to be combined with those items. We use these metrics to monitor the strength of our recurring business. We believe these metrics are useful to investors because they can help in monitoring the long-term health of our business. Our determination and presentation of these metrics may differ from that of other companies. The presentation of these metrics is meant to be considered in addition to, not as a substitute for or in isolation from, our financial measures prepared in accordance with GAAP.

#### **Glossary of Terms**

**Billings:** Total revenue plus the net change in deferred revenue from the beginning to the end of the period.

**Cloud Service Offerings:** Represents individual term-based offerings deployed through web browser technologies or in a hybrid software and cloud configuration. Cloud service offerings that are bundled with other product offerings are not captured as a separate cloud service offering.

**Constant Currency (CC) Growth Rates:** We attempt to represent the changes in the underlying business operations by eliminating fluctuations caused by changes in foreign currency exchange rates as well as eliminating hedge gains or losses recorded within the current and comparative periods. We calculate constant currency growth rates by (i) applying the applicable prior period exchange rates to current period results and (ii) excluding any gains or losses from foreign currency hedge contracts that are reported in the current and comparative periods.

**Design Business:** Represents the combination of maintenance, product subscriptions, and all EBAs. Main products include, but are not limited to, AutoCAD, AutoCAD LT, Industry Collections, Revit, Inventor, Maya, and 3ds Max. Certain products, such as our computer aided manufacturing solutions, incorporate both Design and Make functionality and are classified as Design.

**Enterprise Business Agreements (EBAs):** Represents programs providing enterprise customers with token-based access to a broad pool of Autodesk products over a defined contract term.

**Free Cash Flow:** Cash flow from operating activities minus capital expenditures.

**Industry Collections:** Autodesk Industry Collections are a combination of products and services that target a specific user objective and support a set of workflows for that objective. Our Industry Collections consist of: Autodesk Architecture, Engineering and Construction Collection, Autodesk Product Design & Manufacturing Collection, and Autodesk Media and Entertainment Collection.

**Maintenance Plan:** Our maintenance plans provide our customers with a cost effective and predictable budgetary option to obtain the productivity benefits of our new releases and enhancements when and if released during the term of their contracts. Under our maintenance plans, customers are

eligible to receive unspecified upgrades when and if available, and technical support. We recognize maintenance revenue over the term of the agreements, generally one year.

*Make Business:* Represents certain cloud-based product subscriptions. Main products include, but are not limited to, Assemble, BIM 360, BuildingConnected, PlanGrid, Fusion 360, and Shotgun. Certain products, such as Fusion 360, incorporate both Design and Make functionality and are classified as Make.

*Net Revenue Retention Rate (NR3):* Measures the year-over-year change in subscription and maintenance revenue for the population of customers that existed one year ago ("base customers"). Net revenue retention rate is calculated by dividing the current quarter subscription and maintenance revenue related to base customers by the total corresponding quarter subscription and maintenance revenue from one year ago. Subscription and maintenance revenue is based on USD reported revenue, and fluctuations caused by changes in foreign currency exchange rates and hedge gains or losses have not been eliminated. Subscription and maintenance revenue related to acquired companies, one year after acquisition, has been captured as existing customers until such data conforms to the calculation methodology. This may cause variability in the comparison. Beginning with the first quarter of fiscal 2021, Autodesk modified its definition of NR3 to the definition above. The effect of this change is not material for the periods presented.

*Other Revenue:* Consists of revenue from consulting, training and other services, and is recognized over time as the services are performed. Other Revenue also includes software license revenue from the sale of products that do not incorporate substantial cloud services and is recognized up front.

*Product Subscription:* Provides customers a flexible, cost-effective way to access and manage 3D design, engineering, and entertainment software tools. Our product subscriptions currently represent a hybrid of desktop and cloud functionality, which provides a device-independent, collaborative design workflow for designers and their stakeholders.

*Recurring Revenue:* Consists of the revenue for the period from our traditional maintenance plans and revenue from our subscription plan offerings. It excludes subscription revenue related to consumer product offerings, select Creative Finishing product offerings, education offerings, and third-party products. Recurring revenue acquired with the acquisition of a business is captured when total subscriptions are captured in our systems and may cause variability in the comparison of this calculation.

*Remaining Performance Obligations:* The sum of total short-term, long-term, and unbilled deferred revenue. Current remaining performance obligations is the amount of revenue we expect to recognize in the next twelve months.

*Spend:* The sum of cost of revenue and operating expenses.

*Subscription Plan:* Comprises our term-based product subscriptions, cloud service offerings, and EBAs. Subscriptions represent a combined hybrid offering of desktop software and cloud functionality which provides a device-independent, collaborative design workflow for designers and their stakeholders. With subscription, customers can use our software anytime, anywhere, and get access to the latest updates to previous versions.

*Subscription Revenue:* Includes subscription fees from product subscriptions, cloud service offerings, and EBAs.

*Total Subscriptions:* Consists of subscriptions from our maintenance plans and subscription plan offerings that are active and paid as of the fiscal year end date. For certain cloud service offerings and EBAs, subscriptions represent the monthly average activity reported within the last three months of the fiscal quarter end date. Total subscriptions do not include education offerings, consumer product offerings, select Creative Finishing product offerings, Autodesk Buzzsaw, Autodesk Constructware, and third-party products. Subscriptions acquired with the acquisition of a business are captured once the data conforms to our subscription count methodology and when added, may cause variability in comparison of this calculation.

*Unbilled Deferred Revenue:* Unbilled deferred revenue represents contractually stated or committed orders under early renewal and multi-year billing plans for subscription, services, and maintenance for which the associated deferred revenue has not been recognized. Under FASB Accounting Standards Codification ("ASC") Topic 606, unbilled deferred revenue is not included as a receivable or deferred revenue on our Condensed Consolidated Balance Sheet.

## **Safe Harbor Statement**

This press release contains forward-looking statements that involve risks and uncertainties, including quotations from management, statements in the paragraphs under "Business Outlook" above and other statements about our short-term and long-term goals, and other statements regarding our strategies, market and product positions, performance and results. There are a significant number of factors that could cause actual results to differ materially from statements made in this press release, including: failure to achieve our revenue and profitability objectives; failure to successfully manage transitions to new business models and markets; failure to maintain cost reductions or otherwise control our expenses; difficulty in predicting revenue from new businesses and the potential impact on our financial results from changes in our business models; developments in the COVID-19 pandemic and the resulting impact on our business and operations; general market, political, economic, and business conditions, including from an economic downturn or recession in the United States or in other countries around the world; any imposition of new tariffs or trade barriers; the impact of non-cash charges on our financial results; fluctuation in foreign currency exchange rates; the success of our foreign currency hedging program; our performance in particular geographies, including emerging economies; the ability of governments around the world to meet their financial and debt obligations, and finance infrastructure projects; weak or negative growth in the industries we serve; slowing momentum in subscription billings or revenues; difficulties encountered in integrating new or acquired businesses and technologies; the inability to identify and realize the anticipated benefits of acquisitions; the financial and business condition of our reseller and distribution channels; dependence on and the timing of large transactions; pricing pressure; unexpected fluctuations in our annual effective tax rate; significant effects of tax legislation and judicial or administrative interpretation of tax regulations, including the Tax Cuts and Jobs Act; the timing and degree of expected investments in growth and efficiency opportunities; changes in the timing of product releases and retirements; and any unanticipated accounting charges. Our estimates as to tax rate are based on current tax law, including current interpretations of the Tax Cuts and Jobs Act, and could be affected by changing interpretations of that Act, as well as additional legislation and guidance around that Act.

Further information on potential factors that could affect the financial results of Autodesk are included in Autodesk's reports on Form 10-K and Form 10-Q, which are on file with the U.S. Securities and Exchange Commission. Autodesk disclaims any obligation to update the forward-looking statements provided to reflect events that occur or circumstances that exist after the date on which they were made.

### Reconciliation of GAAP financial measures to non-GAAP financial measures

(In millions, except per share data)

To supplement our consolidated financial statements presented on a GAAP basis, we provide investors with certain non-GAAP measures including non-GAAP net income per share, non-GAAP operating margin, non-GAAP spend, non-GAAP EPS and non-GAAP free cash flow. For our internal budgeting and resource allocation process and as a means to evaluate period-to-period comparisons, we use non-GAAP measures to supplement our consolidated financial statements presented on a GAAP basis. These non-GAAP measures do not include certain items that may have a material impact upon our future reported financial results. We use non-GAAP measures in making operating decisions because we believe those measures provide meaningful supplemental information regarding our earning potential and performance for management by excluding certain expenses and charges that may not be indicative of our core business operating results. For the reasons set forth below, we believe these non-GAAP financial measures are useful to investors both because (1) they allow for greater transparency with respect to key metrics used by management in its financial and operational decision-making and (2) they are used by our institutional investors and the analyst community to help them analyze the health of our business. This allows investors and others to better understand and evaluate our operating results and future prospects in the same manner as management, compare financial results across accounting periods and to those of peer companies and to better understand the long-term performance of our core business. We also use some of these measures for purposes of determining company-wide incentive compensation.

There are limitations in using non-GAAP financial measures because non-GAAP financial measures are not prepared in accordance with GAAP and may be different from non-GAAP financial measures used by other companies. The non-GAAP financial measures are limited in value because they exclude certain items that may have a material impact upon our reported financial results. In addition, they are subject to inherent limitations as they reflect the exercise of judgments by management about which charges are excluded from the non-GAAP financial measures. We compensate for these limitations by analyzing current and future results on a GAAP basis as well as a non-GAAP basis and also by providing GAAP measures in our public disclosures. The presentation of non-GAAP financial information is meant to be considered in addition to, not as a substitute for or in isolation from, the directly comparable financial measures prepared in accordance with GAAP. We urge investors to review the reconciliation of our non-GAAP financial measures to the comparable GAAP financial measures included in this presentation, and not to rely on any single financial measure to evaluate our business.

The following table shows Autodesk's non-GAAP results reconciled to GAAP results included in this release. (1)
